Engineering

The University provides general and specialist research level collections of books, journals and electronic resources for the study of Engineering.

Our collections are now heavily based on online material including electronic journals, databases and reference books, with an increasing number of online text books.

Our collections

Main Library

The **Main Library (https://intranet.birmingham.ac.uk/as/libraryservices/library/about/libraries/mainlibrary/index.aspx)** holds general and specialist research level collections in

- Civil Engineering
- Chemical Engineering
- Electrical
- Electronic & Computer Engineering
- Materials and Metallurgy
- Mechanical Engineering

And related areas including

- Manufacturing
- Biotechnology
- Fuel and Energy technologies
- Food Engineering
- Automotive Engineering
- Transport Engineering

Subject specific books are mostly located in Zone LGC with print journals located in Zone 1D

A main strength of our collection is in our electronic resources. Some of these are available to visitors to the Library.

Other resources

Whilst most of the engineering stock is available from the Main Library, some more specialised areas relating to medical, dental, biosciences and biomedical engineering are housed at the **Barnes Library (https://intranet.birmingham.ac.uk/as/libraryservices/library/about/libraries/barnes.aspx)** and **The Ronald Cohen Dental Library (https://intranet.birmingham.ac.uk/as/libraryservices/library/about/libraries/dental.aspx)** .

Subject advisors

For further information on collection holdings or for advice on how to access our Engineering libraries, please contact:
