Research activity

Here is a list of all the research activity pages:

Generic List

A (/research/activity/index.aspx?AZListing_List_GoToPage=1&stylemediatype=print) [illegible] &stylemediatype=print) [illegible] Letter=w)

Advanced Manufacturing Technology Centre - Mechanical Engineering research (/research/activity/mechanical-engineering/advanced-manufacturing/index.aspx)

The Advanced Manufacturing Technology Centre brings together key research groups and individuals within the University of Birmingham's School of Mechanical Engineering. It includes: Advanced Machining, Automation and Intelligent Manufacturing, Laser processing, Micro Manufacturing and Computer Aided Engineering.

Aerodynamics research - The Birmingham Centre for Railway Research and Education (/research/activity/railway/research/aerodynamics/index.aspx)

AeroTRAIN (/research/activity/railway/research/aerodynamics/aerotrain/index.aspx)

Africa hub (/research/activity/africa-hub/index.aspx)

The Africa Hub (AHub) promotes and disseminates Africa-focused research conducted across Colleges and Departments at the University of Birmingham, and in collaboration with Birmingham's academics. Its goal is to spread innovative ideas, question stereotypes, and integrate findings from African Studies into a broad range of academic fields and public debates.

Aim of the study (/research/activity/mds/projects/HaPS/PCCS/partners2/aim/index.aspx)

Alcohol, drugs, gambling and addiction research - School of Psychology (/research/activity/psychology/addiction/index.aspx)

The aim of the Alcohol, Drugs, Gambling and Addiction research group is to carry out, and disseminate the results of research into the consumption of alcohol and other drugs, and involvement in other potentially addictive behaviours such as gambling.

An exploration of mental health blogging (/research/activity/psychology/clinical/projects/mental-health-blogging/index.aspx)

Homepage for a research study to explore people's experiences of writing personal journal style blogs, which mainly focus on expression of thoughts and emotions, encompassing experiences of mental health difficulties.

An Introduction To Downbursts (/research/activity/civil-engineering/transient-winds/introduction/index.aspx)

Angiogenesis Research Group (/research/activity/mds/domains/cardio-resp-neuro/vascular-inflammation/angiogenesis-group/index.aspx)

Information on the Angiogenesis Group led by Professor Roy Bicknell and Dr Victoria Heath, Section of Cardiovascular Sciences, School of Clinical and Experimental Medicine, College of Medical and Dental Sciences, The University of Birmingham

Angioplasty and Stent for Renal Artery Lesions trial (ASTRAL) (/research/activity/mds/trials/bctu/trials/renal/astral/index.aspx)

ASTRAL is a multicentre, randomized, unblinded clinical trial, comparing revascularisation in addition to medical therapy versus medical therapy alone in patients with atherosclerotic renovascular disease (ARVD). The aim of ASTRAL is to assess whether renal arterial revascularisation with balloon angioplasty and/or endovascular stenting can safely prevent progressive renal failure among patients with ARVD. ASTRAL closed to recruitment in October 2007 having recruited 806 patients, and is now in long term follow up until 2017. The trial is managed by the BCTU at the University of Birmingham.
