Research in the Centre

The MRC Centre for Immune Regulation covers a wide portfolio of research interests, the main themes of which are outlined below.

Mechanisms in lymphocyte development and selection

Professor Eric Jenkinson (/staff/profiles/iandi/jenkinson-eric.aspx) - Professor of Experimental Immunology

Professor Graham Anderson (/staff/profiles/iandi/anderson-graham.aspx) - Professor of T-Lymphocyte Biology

Professor Jon Frampton (/staff/profiles/iandi/frampton-jon.aspx) - Professor of Stem Cell Biology

Dr Jorge Caamano (/staff/profiles/iandi/caamano-jorge.aspx) - Senior Lecturer

Dr William Jenkinson (/staff/profiles/iandi/jenkinson-william.aspx) - Lecturer

Induction and regulation of immunity in secondary lymphoid tissues

Professor Peter Lane (/staff/profiles/iandi/lane-peter.aspx) - Professor of Immunology

Professor Ian MacLennan - Emeritus Professor of Immunology

Dr Lucy Walker (/staff/profiles/iandi/walker-lucy.aspx) - MRC Career Development Fellow and Reader In T-Reg Biology

Professor David Sansom (/staff/profiles/iandi/sansom-david.aspx) - Professor of Immune Cell Biology

Professor Adam Cunningham (/staff/profiles/iandi/cunningham-adam.aspx) - RCUK Roberts Fellow

Professor Calman MacLennan - Honorary Professor / Honorary Consultant Immunologist

Dr Kai Toellner (/staff/profiles/iandi/toellner-kai.aspx) - Senior Research Fellow

Professor Peter Cockerill (/staff/profiles/iandi/cockerill-peter.aspx) - Chair of Cytokine Gene Regulation

Mechanisms in chronic inflammation

Professor Chris Buckley (/staff/profiles/iandi/buckley-christopher.aspx) - ARC Professor of Rheumatology

Professor Gerard Nash - Professor of Cardiovascular Rheology

Dr Karim Raza (/staff/profiles/iandi/raza-karim.aspx) - Reader in Clinical Rheumatology and Honorary Consultant

Dr Andrew Filer (/staff/profiles/iandi/filer-andrew.aspx) - Senior Lecturer and Honorary Consultant Rheumatologist

Dr Dagmar Scheel Toellner (/staff/profiles/iandi/scheeltoellner-dagmar.aspx) - Senior Research Fellow

Dr G Ed Rainger (/staff/profiles/cem/CVRS/Rainger-Ed.aspx) - BHF Basic Sciences Lecturer

Professor Steve Watson (/staff/profiles/cem/CVRS/Watson-Steve.aspx) - BHF Professor in Cardiovascular Sciences and Cellular Pharmacology

Cellular immunity to viral infection and tumours

Professor Paul Moss (/staff/profiles/cancer/moss-paul.aspx) - Professor of Haematology

Professor Alan Rickinson (/staff/profiles/cancer/rickinson-alan.aspx) - Professor of Cancer Studies

Professor Martin Rowe (/staff/profiles/cancer/rowe-martin.aspx) - Professor of Tumour Virology

Professor Jane McKeating (/staff/profiles/iandi/mckeating-jane.aspx) - Professor of Molecular Virology

Dr Andrew Hislop (/staff/profiles/cancer/hislop-andrew.aspx) - Research Fellow

Graham Taylor (/staff/profiles/cancer/taylor-graham.aspx) - Lecturer in Tumour Immunology

Dr Ben Willcox (/staff/profiles/cancer/willcox-benjamin.aspx) - Reader in Molecular Immunology

Dr Mark Cobbold - Clinical Lecturer

Cellular and molecular models of chemokine activity

Professor Antal Rot (/staff/profiles/iandi/rot-antal.aspx) - Professor of Immunology

Impact of ageing on the immune response and immune mediated disease

Professor Janet Lord (/staff/profiles/iandi/lord-janet.aspx) - Professor of Molecular Immunology

Translational Development
