Water Sciences research - School of Geography, Earth and Environmental Sciences

Water is a cross-cutting research issue driving national and international research agendas. The Water Sciences group at the University of Birmingham undertakes pure and applied research within this dynamic and fast-changing area, to address questions of immediate concern to society and environment.

Welfare Futures Research Group

Welfare futures research group. Institute of Applied Social Studies, School of Social Policy.

West Midlands Commissioning Support Unit

The West Midlands Commissioning Support Unit (WMCSU) brings together specialist expertise in healthcare commissioning, clinical medicine, public health, clinical pharmacology and therapeutics, epidemiology, biostatistics, and research methods including information science, evidence synthesis and evaluation. The WMCSU reviews evidence and analyzes data and information to produce intelligence on the health and health care of the 5.5 million people who live in the West Midlands. We provide up-to-date intelligence for health practitioners, policy-makers and researchers to assist with commissioning and policy decisions, as well as education and training for commissioning organisations to support effective evidence based commissioning.

What is MidRec?

The Midland Research Practices Consortium (MidReC) is a network of over 600 practices with populations totalling over four million people that are representative of England and Wales. While initially MidReC practices were mainly in and around Greater Birmingham, they are now widely distributed across and beyond the West Midlands including the counties of Gloucestershire, Herefordshire, Shropshire, North and South Staffordshire, Warwickshire, Worcestershire and Cheshire.

What is Russia's engagement in the export of governance to post-Soviet states in Europe? (2013-2015)
