Dr Jennifer Marshall (/staff/profiles/iandi/marshall-jennifer.aspx)

Research Associate

School of Immunity and Infection

Jennifer Marshall is a post-doctoral research fellow working in Prof Chris Buckley's group in the School of Immunity and Infection.

She is currently investigating altered metabolism in the rheumatic joint with an intention to provide better disease outcomes. Her previous post-doctoral work and PhD studies concentrated on B cell responses; how they respond to different ...

Dr Helen McGettrick (/staff/profiles/iandi/mcgettrick-helen.aspx)

Arthritis Research UK Career Development Fellow

School of Immunity and Infection

Helen McGettrick is an experimental biologist who specialises in developing multi-cellular in vitro models to examine the processes by which tissue resident cells influence leukocyte adhesion and migration during inflammation. **Find out more (/schools/immunity-infection/research/ii-shorts/mcgettrick-helen.aspx)**

Helen's research focuses on leukocyte recruitment and stromal cell biology in health and disease, in which she has several ...

Professor Tim Mitchell (/staff/profiles/iandi/mitchell-tim.aspx)

Professor of Microbial Infection and Immunity
Deputy Head of School
Joint Microbiology Theme Lead SRMRC

School of Immunity and Infection

Tim Mitchell is professor of Microbial Infection and Immunity and Deputy Head of the School of Immunity and Infection.

Tim has published over 200 research papers in scientific journals as well as reviews and book chapters in the fields of microbial pathogenesis and immunity. He has received major grants from Wellcome Trust, European Union, Medical Research Council and PATH. He has ...
