Find out more information about our other renal trials and the University of Birmingham Clinical Trials Unit below:

BCTU

(http://www.birmingham.ac.uk/research/activity/mds/trials/bctu/index.aspx) The University of Birmingham Clinical Trials Unit (BCTU) is a Research Unit within the School of Medicine specialising in the design, conduct and analysis of clinical trials.

PEXIVAS

(http://www.bctu.bham.ac.uk/pexivas/) Plasma exchange and glucocorticoid dosing in the treatment of anti-neutrophil cytoplasm antibody associated vasculitis: an international randomised controlled trial.

PREDNOS (http://www.bctu.bham.ac.uk/prednos/)

PREDNOS is a national multi centre randomised double blind trial of long-term tapering versus standard prednisolone (steroid) therapy for the treatment of the initial episode of childhood nephrotic syndrome.

GloMY (http://www.bctu.bham.ac.uk/GloMY/)

GloMY is a national, multi-centre, randomised controlled open-label pilot trial of Myfortic plus short course steroids versus standard care in patients with proteinuric primary focal segmental glomerulosclerosis (FSGS) and IgA nephropathy (IgAN).

PREDNOS 2 (/research/activity/mds/trials/bctu/trials/renal/prednos2/index.aspx)

PREDNOS 2 is a phase III randomised parallel group, placebo-controlled, double-blind trial of short course daily prednisolone therapy at the time of upper respiratory tract infection in children with relapsing steroid sensitive nephrotic syndrome.

STOP-ACEi (/research/activity/mds/trials/bctu/trials/renal/STOPACEi/index.aspx)
STOP-ACEi is a multi-centre, randomised controlled trial of Angiotensin Converting Enzyme inhibitor (ACEi) / Angiotensin Receptor Blocker (ARB) withdrawal in advanced kidney disease.
