Find out more information about our other renal trials

BCTU (/research/activity/mds/trials/bctu/index.aspx)
The University of Birmingham Clinical Trials Unit (BCTU) is a Research Unit in the School of Medicine specialising in the design, conduct and analysis of clinical trials.

GloMY (/research/activity/mds/trials/bctu/trials/renal/glomy/index.aspx)
GloMY is national, multi-centre, randomised controlled open-label pilot trial of Myfortic plus short course steroids versus standard care in patients with proteinuric primary focal segmental glomerulosclerosis (FSGS) and IgA nephropathy (IgAN).

PEXIVAS (/research/activity/mds/trials/bctu/trials/renal/pexivas/index.aspx)
Plasma exchange and glucocorticoid dosing in the treatment of anti-neutrophil cytoplasm antibody associated vasculitis: an international randomised controlled trial.

PREDNOS (/research/activity/mds/trials/bctu/trials/renal/prednos/index.aspx)
Long-term tapering versus standard prednisolone (steroid) therapy for the treatment of the initial episode of childhood nephrotic syndrome: national multicentre randomised double blind trial

PREDNOS 2 (/research/activity/mds/trials/bctu/trials/renal/prednos2/index.aspx)
Short course daily prednisolone therapy at the time of upper respiratory tract infection in children with relapsing steroid sensitive nephrotic syndrome.

STOP-ACEi (/research/activity/mds/trials/bctu/trials/renal/STOPACEi/index.aspx)
STOP-ACEi is a multi-centre, randomised controlled trial of Angiotensin Converting Enzyme inhibitor (ACEi) / Angiotensin Receptor Blocker (ARB) withdrawal in advanced kidney disease.
