Academic staff

Dr Robert Gray (/staff/profiles/sportex/gray-robert.aspx)

Reader in Perception & Action

Dr Rob Gray's work illuminates the dynamics of perception, cognition, and action in skilled performance. His work has the admirable quality of advancing perception-action theory while directly relating to applied problems. He brings real-world activities into the laboratory, where he rigorously investigates fundamental issues related to performance (American Psychological ...

Dr Michael J. Grey (/staff/profiles/sportex/grey-michael.aspx)

Reader in Motor Neuroscience

(/university/colleges/les/research-gallery/michael-grey.aspx) Dr Grey is a motor neuroscience physiologist with interests in cortical/spinal plasticity and neurorehabilitation. He uses non-invasive electrophysiology, transcranial magnetic stimulation and neuroimaging techniques to study human movement. He has a particular interest in acquired brain injury including stroke and concussion.

Dr Martin Lakie (/staff/profiles/sportex/lakie-martin.aspx)

Reader in Applied Physiology

Dr François-Xavier Li (/staff/profiles/sportex/li-fran%c3%a7ois-xavier.aspx)

Lecturer in Motor Control and Learning
Admission Tutor
Theme Leader "Optimal Performance"

Dr François-Xavier Li is primarily interested in the optimisation of movement in a variety of contexts, population (elite to elderly) and tasks (running, cycling, golf, walking). He is also Admissions Tutor for the BSc Sport, Exercise and Rehabilitation Sciences

Dr Raymond Reynolds (/staff/profiles/sportex/reynolds-raymond.aspx)

Lecturer in Motor Control

Dr Raymond Reynolds has a wide range of interests within the field of human motor control. This includes sensorimotor control of balance, reaching and tremor. His research is supported by the BBSRC.
