Mathematical Economics and Statistics BSc

By integrating the studies of economics and statistics with this degree, we are meeting the increasing demand for informed and talented graduates who are able to apply skill and imagination to real-world problems. As a graduate you emerge with an excellent professional training in economics allied with advanced technical and quantitative skills.

- 85% student satisfaction i.e. students satisfied with the overall quality of this course
- 95% of our graduates go on to work or undertake further study
