Dr Jackson.C Kirkman-Brown MBE (/schools/cem/staff/profile.aspx?ReferenceId=21215)

Reader in Human Reproductive Science
Science Lead at Birmingham Women's Fertility Centre
Healthcare Scientist of the Year (2014)

Reproduction, Genes and Development

Jackson is interested in, and excited about, the potential impact of research into andrology on both diagnosis and treatment of infertility. He strongly believes that research in the area can have a rapid and direct impact not only on care, and therefore birth of the next generation, but also quality of life for the patients involved.
