About

- Associate Professor, Medical Education, College of Medical and Dental Sciences, University of Birmingham, 2011-date.
- Vice Dean for Medical Education, College of Medical and Dental Sciences, University of Birmingham, 2010-date,
- Reader in Cardiovascular Medicine, School of Clinical and Experimental Medicine, College of Medical and Dental Sciences, University of Birmingham, 1997-2011;
- Senior Lecturer in Cardiovascular Medicine, University of Birmingham, 1990-1997
- Honorary Consultant Cardiologist, University Hospital Birmingham NHS Foundation Trust (1990-date)
- Deputy Senior Welfare Tutor and 5th Year Welfare Tutor, MBChB, 2005–2010
- Programme Director for MBChB (Graduate Entry Course) 2006-2010
- Programme Directorfor MBChB (including Graduate Entry Course), 2008–2010

Qualifications

- MBChB (Birmingham) 1979
- Membership of Royal College of Physicians (UK) 1982
- MD (Birmingham) 1987
- Fellowship of Royal College of Physicians (London) 1994
- Fellowship of the European Society for Cardiology 2000
- Fellowship of the Heart Rhythm Society 2009

Biography

Michael Gammage qualified from the University of Birmingham in 1979 and undertook house jobs in Worcester and East Birmingham (now Heartlands). He then started clinical training in General Medicine and Cardiology, returning to Birmingham University as a British Heart Foundation Junior Research Fellow in 1983, where he worked in the Departments of Cardiovascular Medicine and Physiology, gaining his MD in 1987. Continuing training in Leicester and Birmingham, he was appointed British Heart Foundation Senior Lecturer in Birmingham and Honorary Consultant Cardiologist at the General and Queen Elizabeth Hospitals in 1990.

Having developed a strong clinical interest in cardiac pacing, he contributed to the development of the Queen Elizabeth Hospital as a major centre for cardiac pacing and electrophysiology and has taken a lead in the development and introduction of selective site pacing internationally, including steering multi-centre studies and driving an educational programme to support and promote the implementation of this improvement in therapy. He continues to work as a Consultant Cardiologist for the University Hospital Birmingham NHS Foundation Trust and is responsible for their syncope service.

With a long-standing interest in teaching and training in cardiology at both undergraduate and postgraduate levels, he took over as lead for the MBChB Graduate Entry Course in 2006, gaining additional responsibility as Programme Lead for the 5 year course in 2008 and being appointed Vice Dean for Medical Education in 2010. During this time, the 2014 curriculum review has taken place and is now being implemented across the 16 Teaching Trusts within the West Midlands, with the aims of improving the student experience whilst modernizing the course content, maintaining the identity and professional standards of the Birmingham graduate, and continuing to provide some 400 high- quality medical graduates each year.

Teaching

MBChB

- Lectures to 2nd, 3rd and 4th year medical and dental students.
- Simulator-based cardiology teaching to 3rd and 4th year medical students.

Postgraduate supervision

Currently supervising 4 research PhDs in the field of Cardiovascular Medicine

Research

Research interests are clinical and relate to the influence of cardiac pacing on left ventricular function. Recent work has focused on new methods to deliver pacing leads, new lead designs and the long-term influence of right ventricular septal pacing on cardiac function.

Other activities

- Council Member, Heart Rhythm UK, 2000 – date; elected Secretary 2005-2011
- Lead Clinician, Cardiac Pacing Project, Health Quality Improvement Programme, (formerly National Clinical Audit and Patient Outcomes, Healthcare Commission), 2006-date.
- Joint Royal Colleges Physicians Training Board Cardiology Specialist Advisory Committee, (Heart Rhythm UK representative) 2007-date
- Member, National Heart Rhythm Management Devices Taskforce, 2007-date
- Heart Rhythm Congress Scientific Committee, 2008 – date
- Cardiology Expert, Medicine and Healthcare Regulatory Authority (MHRA) Committee on the Safety of Devices, 2009-date
- British Cardiovascular Society Revalidation Committee, 2009-date
- Chair, Cardiac Devices National Advisory Group, 2010 – date
- British Cardiovascular Society Clinical Skills Committee, 2010 – date
- Medical Schools Council Assessment Alliance, 2010 – date
- Department of Health National Heart Disease Advisory Group, 2010-date
