About

Sarah is currently providing secondment cover in the role of Operations Manager (Postgraduate Programmes).

Qualifications

- Certificate in Social Sciences, Open University, 2003
- PhD in Medicinal Chemistry, Cardiff University, 1999
- BSc (Hons) in Biomolecular and Biomedical Chemistry, University of Wales Swansea, 1996

Biography

Following a PhD in medicinal chemistry, Sarah undertook postdoctoral research at Cardiff University, the University of Reading and Wake Forest University, USA. She has also worked as a medical writer for an international medical communications agency.

Prior to joining the University of Birmingham in 2010, Sarah worked as a Research Facilitator at the University of Oxford Department for Continuing Education for more than three years.

Sarah joined the University of Birmingham in 2010 as Research Administrator in Dentistry and recently undertook a secondment as Strategic Project Manager in the College of Medical and Dental Sciences. Sarah is now providing secondment cover in the role of Operations Manager (Postgraduate Programmes).

In this post, Sarah has overall administrative management responsibility for postgraduate research and postgraduate taught programmes in the College and works closely with the College Graduate Studies Director, Professor Steve Watson and administrative colleagues in the Schools dealing with recruitment & targets, admissions, registration, academic progress, leavers and new programme developments.
