Biological Sciences (Microbiology) BSc (Hons)

Even though you can't see microorganisms, they are all around us. Our course aims to interest and involve students in the fascinating and beautiful world of bacteria, fungi and viruses. Birmingham University's **Institute of Microbiology and Infection (/research/activity/microbiology-infection/index.aspx)** brings together bacteriologists from around the campus creating a unique community of microbiologists who contribute to the teaching of Microbiology and offer research projects to final year students.

95% of our graduates are in employment or further study 6 months after graduation and we rank 3rd for graduate employability in the Russell Group Universities. Our graduates work in diverse careers such as medicine, conservation, agriculture and more.

2013 National Student Survey "94% of students said that overall they were satisfied with the quality of our Biology courses."

Study here and find out why the University of Birmingham has been awarded The Times and The Sunday Times University of the Year 2013-14 (http://www.birmingham.ac.uk/news/latest/2013/09/20-sep-Birmingham-announced-as-University-of-the-Year.aspx)

Course fact file

UCAS code: C100

Duration: 3 years

Places Available: 250 (Total number of places for all undergraduate courses in the school)

Applications in 2013: 1819

Typical Offer: AAA–AAB (**More detailed entry requirements and the international qualifications accepted can be found in the course details (?OpenSection=EntryRequirements)**)

Start date: September
