Sometimes referred to as international studies, you do not have to look too far to find examples of how international relations impact our everyday lives. From international conventions on human rights; how environmental issues shape domestic legislation; or why the prospect of local military interventions can have an adverse impact on a global economy. The International Relations degree at Birmingham allows you to look at the role of states and organisations in an ever interconnected world.

Our students particularly enjoy the opportunities to hear from influential guest speakers about their lives in politics. Recent speakers have included Alistair Darling, David Miliband and John Bercow.

Unlike a distinct academic discipline, this course will enable you to gain an appreciation of how politics, history, geography, economics and law all require international co-operation if we are to resolve and effectively manage a wide range of problems on a global scale. It's no wonder our graduates go on to such diverse and successful careers.

This degree at Birmingham is ranked 3rd out of the Russell Group of UK universities. The Russell Group is committed to maintaining the very best research, an outstanding teaching and learning experience and unrivalled links with business and the public sector.

You do not have to look too far to find examples of how international relations impinge on our everyday lives. For example, international conventions on human rights or environmental issues increasingly shape domestic legislation in individual countries, while the prospect of military intervention in specific regions can have an adverse impact on the global economy that reverberates around the world.

This degree addresses a wide range of problems and concerns that have a global dimension or impact, and which require international co-operation if they are to be resolved or managed effectively. While International Relations is a distinct academic discipline, it is by its nature interdisciplinary, requiring you to acquire some knowledge of politics, history, geography, economics and law.

In addition to our Single Honours programme, International Relations can also be studied as part of a **Joint Honours option (http://www.birmingham.ac.uk/undergraduate/courses/govsoc/international-relations.aspx?OpenSection=JointHonourCombinations)** with Russian Studies.

If you want to take advantage of a unique opportunity to be supported with a work placement opportunity as part of your final year, this course includes the opportunity to undertake a '**Professional Development (/undergraduate/courses/govsoc/modules/year-three/professional-development.aspx)** ' module as part of your optional module choices.

Why study this course

Students applying for the BA International Relations degree at Birmingham will join the Department of Political Science and International Studies (POLSIS), a department that consistently scores high in the National Student Survey (NSS) and is consistently viewed as one of the best departments in the country.

The Department also has an excellent record in the Guardian League Table for Politics. We are consistently viewed as one of the best departments in the country since the Guardian started publishing their League Tables in 2000.

The Department has a balance of expertise that covers all areas of the discipline and has long-established strengths in the fields of political theory, European politics, international relations theory, security studies, diplomatic studies, political sociology, political economy, Pacific Asian politics, environmental politics and British politics.

As well as benefiting from our world-leading expertise, you'll also get the chance to take part in a range of in-house activities that vary by year and are designed to complement your curriculum and enrich your time at Birmingham. These have included:

- Annual Student Conference
- Research Assistance Scheme, where students are paired with a member of staff to help them in specific research tasks
- Simulation exercises using real case examples
- Simulation events and research visits to local and national places of interest

UCAS

The Universities and Colleges Admissions Service (UCAS) is a UK organisation responsible for managing applications to university and college.

UK, EU and international students applying for most undergraduate degree courses in the UK will need to apply through UCAS.

You submit an application via the **UCAS website (http://www.ucas.co.uk/)** with a list of up to five courses. All choices are confidential during the application process so universities and colleges considering an application cannot see your other choices. Applications must be completed by mid-January of the year that you wish to start university.

You can monitor the progress of your application using the **UCAS Apply (http://www.ucas.com/students/apply)** system.

Joint Honours combinations

You can study Political Science as part of a Joint Honours degree with the following subject:

Key Information Set (KIS)

Key Information Sets (KIS) are comparable sets of information about full- or part-time undergraduate courses and are designed to meet the information needs of prospective students.

All KIS information has been published on the Unistats website and can also be accessed via the small advert, or 'widget', below. On the **Unistats website (http://unistats.direct.gov.uk)** you are able to compare all the KIS data for each course with data for other courses.

The development of Key Information Sets (KIS) formed part of HEFCE's work to enhance the information that is available about higher education. They give you access to reliable and comparable information in order to help you make informed decisions about what and where to study.

The KIS contains information which prospective students have identified as useful, such as student satisfaction, graduate outcomes, learning and teaching activities, assessment methods, tuition fees and student finance, accommodation and professional accreditation.

Learning and teaching

How will I be taught?

As a Birmingham student you are part of an academic elite and will learn from world-leading experts. From the outset you will be encouraged to become an independent and self-motivated learner. We want you to be challenged and will encourage you to think for yourself.

Teaching and learning in the Department of Political Science and International Studies (POLSIS) is based around three principles: student-centred, responding to individual needs, developing transferable skills and encouraging preparation for future careers; research-led, ensuring students are taught by experts in their field and prioritising 'learning by doing' to foster critical thinking and active enquiry; committed to social justice, concerned with issues of equality, inclusion, responsibility and reflexive awareness, and committed to an ideal of democratic decision-making – consulting all students about their learning experience.

Your learning will take place in a range of different settings, from scheduled teaching in lectures and small group tutorials, to self-study and peer group learning (for example preparing and delivering presentations with your classmates).

To begin with you may find this way of working challenging, but rest assured that we'll enable you to make this transition. You will have access to a comprehensive support system that will assist and encourage you, including personal tutors and welfare tutors who can help with both academic and welfare issues, and a **formal transition review (https://intranet.birmingham.ac.uk/student/transitionreview/index.aspx)** during your first year to check on your progress and offer you help for any particular areas where you need support.

Our Academic Skills Centre also offers you support with your learning. The centre is a place where you can develop your mathematical, academic writing and general academic skills. It is the centre's aim to help you to become a more effective and independent learner through the use of a range of high-quality and appropriate learning support services. These range from drop-in sessions with support with mathematics and statistics based problems provided by experienced mathematicians, to workshops on a range of topics including note talking, reading, writing and presentation skills.

More about **student experience at POLSIS (/schools/government-society/departments/political-science-international-studies/teaching/enhancing-student-experience/index.aspx)**

Personal Tutor

From the outset, you will be assigned your own Personal Tutor who will get to know you as you progress through your studies, providing academic and welfare advice, encouraging you and offering assistance in any areas you may feel you need extra support to make the most of your potential and your time here at Birmingham.

Contact hours

As well as time with your lecturers and personal tutor, academic and professional services staff (like our dedicated Careers Network team) will be avialable to offer individual and group support throughout your time here at Birmingham.

Learning settings

This degree is taught by our internationally renowned Department of Political Science and International Studies (POLSIS) which is located in Muirhead Tower on own main Edgbaston campus.

Departments from across the School of Government and Society are all based within the recently refurbished Muirhead Tower. Following a £50million refurbishment, Muirhead Tower offers state-of-the-art teaching and research study facilities including free wifi throughout the building and dedicated study areas for postgraduate research students.

Muirhead Tower comprises 12,000sq.m of floor space between two towers. The tower includes a number of sustainable features including solar shading (known in the trade as brise soliel) to control temperatures, as well as low energy fans; timed lighting to reduce energy waste; natural ventilation systems and a heat source taken from the University's combined heat and power generator.

The space has been designed to create modern, attractive spaces for teaching and research accommodating 150 academic offices, 230 "hubs" for post graduate research students, teaching rooms for up to 100 people and a 200 seat lecture theatre.

Your lectures and teaching will take place in a variety of versatile lecture theatres and breakout rooms which have moved on a lot since the traditional whiteboard and pen. Our rooms are all equipped with wireless connection and constantly updated technology including all the audio-visual equipment that you would expect from one of the UK's premier insitutions.

Small-group tutorials/personal tutorials run alongside our lectures, addressing any individual problems you may have and allowing you to consolidate lecture material, as well as test your understanding through problem-solving exercises.

Self study is an essential part of the programme and requires self motivation and enthusiasm for your subject. It also allows you to pursue your own lines of enquiry and become an independent thinker.

Assessment methods

Studying at degree-level is likely to be very different from your previous experience of learning and teaching. You will be expected to think, discuss and engage critically with the subject and find things out for yourself. We will enable you to make this **transition to a new style of learning (https://intranet.birmingham.ac.uk/student/transitionreview/index.aspx)** , and the way that you are assessed during your studies will help you develop the essential skills you need to make a success of your time at Birmingham.

You'll be assessed in a variety of ways, and these may be different with each module that you take. You will be assessed through coursework which may take the form of essays, group and individual presentations, laboratory-based work (depending on your chosen degree) and formal exams.

During your first year you will undergo a **formal 'transition' review (https://intranet.birmingham.ac.uk/student/transitionreview/index.aspx)** to see how you are getting on and if there are particular areas where you need support. This is in addition to the personal tutor who is based in your school or department and can help with any academic issues you encounter.

At the beginning of each module, you'll be given information on how and when you'll be assessed for that particular programme of study. You'll receive feedback on each assessment within four weeks, so that you can learn from and build on what you have done. You'll be given feedback on any exams that you take; if you should fail an exam we will ensure that particularly detailed feedback is made available to enable you to learn for the future.

Employability

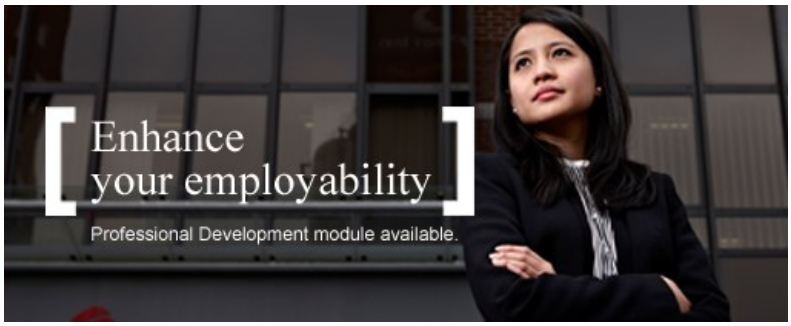
Throughout your time on the International Relations BA course, employability is a key area of focus. We help to make sure that you are employable through a range of department led and university wide initiatives which include:

Input from Professional Careers Advisers in your Curriculum

During the first year of your studies Careers Advisers from the University Careers Network team attend lectures in your course to support you with career planning from an early stage. The lectures will cover career planning, researching career and internship opportunities, developing the skills that graduate employers are looking for, and presenting yourself with impact to a potential employer.

Professional development module

You will have the unique opportunity to take advantage of a work placement as part of your final year by undertaking the **Professional Development Module (/undergraduate/courses/govsoc/modules/year-three/professional-development.aspx)** as part of your optional module choices.



(/undergraduate/courses/govsoc/modules/year-three/professional-development.aspx)

Careers Network

Careers Network (/undergraduate/careers/careers-network.aspx) is the University's award winning careers service. The service has been shortlisted for a 2014 Times Higher Education Award for offering 'outstanding support for students' and has already been recognised by 'Ratemyplacement.co.uk' for being the best university careers service. A dedicated careers team for the College of Social Sciences will be able to support you with making career decisions and planning your career, while you are studying. They can provide you with guidance on writing application forms and CVs, and can arrange mock interviews and assessment centres.

An Employer Relations and Work Experience team leads on coordinating four major careers fairs each year, bringing a wide range of national and international graduate employers on to campus each year to meet with students. This team also manages a database of internships and graduate vacancies including **Global Challenge**

(http://www.birmingham.ac.uk/generic/internships/opportunities/globalchallenge/index.aspx) ; a unique scheme to give ambitious students once-in-a-lifetime opportunities as interns in top global companies.

Visit the University of Birmingham Careers pages for further information on how we are '**Investing in your future (/undergraduate/careers/index.aspx)** '.

Your Birmingham degree

Your Birmingham degree is evidence of your ability to succeed in a demanding academic environment. Employers target Birmingham students for their drive, diversity, communication and problem-solving skills, their team-working abilities and cultural awareness, and our graduate employment statistics have continued to climb at a rate well above national trends. If you make the most of the wide range of services you will be able to develop your career from the moment you arrive.

Alumni profiles

The School of Government and Society is proud of all of its students and alumni. Via the University's Development and Alumni Office, we hope to keep in touch with all of our alumni post-graduation, to learn of their many successes and to continue to share our research successes and campus developments.
