Welcome to the School of Mathematics

The School of Mathematics at the University of Birmingham welcomes students, staff and visitors from overseas. The School is a large and thriving Mathematics department with approximately 60 academic staff, 600 undergraduate students and 50 postgraduate students.

As a Russell Group University, and an active member of Universitas 21, our reputation is underpinned by international research of the highest standard, partnered by outstanding learning and teaching delivery.

The staff within the School represents numerous nationalities, and our students are recruited from across the European Union and the world.

If you choose to become a student here you can be sure that you will benefit tremendously from the experience of studying in Birmingham. Not only will you secure a well respected mathematics degree, which is recognised around the world, but you will also benefit from the friendly multicultural community that exists on our beautiful campus.

By choosing to study at the University of Birmingham you will be joining some 4000 other international students who have decided that Birmingham is the right University for them as well as to hundreds of staff members from all over the world.
