Bibliography of Fluorescence Papers

Fluoronet has compiled a list of journal articles and book chapters that focus on the optical (UV absorbance and fluorescence) properties of dissolved organic matter.

Please treat this bibliography as incomplete and a work in progress. We would value any additions and updates.

Last updated: 24th June 2009.

Mopper K, Schultz CA. Fluorescence as a possible tool for studying the nature and water column distribution of DOC components. Mar Chem 1993; 41: 229-238.

Sierra MMD, Giovanela M, Parlanti E, Soeiano-Sierra EJ. 20 05. Fluorescence fingerprint of fulvic and humic acids from varied origins as viewed by single scan and excitation/emission matrix techniques. *Chemosphere* 58 715-733.
