

## **Your First Placement**

Here's a checklist of things you will need to have done prior to your very first placement:

- **Attended Occupational Health\***
- **Signed the 'Fitness to Practice' Document**
- **Attended Moving & Handling Training (and received certificate)**
- **Attended the Uniform Measurement Session (you will be informed when your uniform is ready to be picked up)**
- **Received your name badge & ID card**

\* NB - You will have an appointment with occupational health in the 1st week of term. Please remember to turn up for this, and all subsequent, appointments. If you miss any you may not receive all of the immunisation jabs you require. This may mean that you will not be allowed to attend placements which may ultimately prevent you from passing your year! If you do miss an appointment please contact **occupational health** immediately.

If you are having any difficulties completing the tasks above please contact Norma Jones using the details below.

If you have any health issues you need to discuss that might present an issue whilst you are on placement (e.g. pregnancy) again, please contact Norma at the earliest opportunity.
