THE FUTURE OF SOCIAL HOUSING

Monday 6 June 2016

With the housing sector facing unprecedented challenges over the next decade, this conference will explore the future of sector and innovative alternatives. You will have the opportunity to meet researchers, policy makers and advocates and front line workers and leave better informed and connected.

The conference has two plenaries with internationally recognised speakers, and six interactive 'big debate', 'cutting edge' and 'agenda setting' workshops themed to match your interests where you can exchange ideas learn about best practice and plan for a better future.

Workshops on the day include:

- Is social housing on the critical list?
- Are there better housing options for older people?
- Is private rented housing the 'new social housing'?
- Where next for socially mixed communities?
- What is the view from Birmingham and the Midlands?
- What innovative alternatives are there?
