1. Principles
2. Definition of Extenuating Circumstances
3. Procedure for submitting a case for consideration by the Extenuating Circumstances panel
4. Organisation of the Extenuating Circumstances Panel
1. **Principles**

1.1 This Code of Practice applies to all Registered Students, students on Leave of Absence, students with Thesis Awaited Status and External Resit students undertaking Undergraduate and Postgraduate Taught programmes and taught modules on Doctoral Research programmes (collectively referred to in this Code of Practice as “students”).

1.2 This Code of Practice does not apply to Extenuating Circumstances (ECs) affecting a postgraduate research viva which should be raised directly with the student’s supervisor in advance of the viva.

1.3 With the exception of extensions, students on Joint Honours programmes, Major/Minor programmes and modules outside of the main discipline (MOMDs) should follow the ECs guidance of their Driver School (the leading Principal Academic Unit (PAU) for the programme).

1.4 Short-term extensions will normally be dealt with by the module owning PAU, in consultation with the Driver School. For details on extensions, please refer to the Code of Practice on Assessment of Taught Programmes and Modules.

1.5 For deferral of examinations, please refer to the Code of Practice on Assessment of Taught Programmes and Modules.

1.6 Where a decision on a case may affect another PAU, in the case of either an extension or any other ECs matter, the Driver School must communicate the decision to any other PAU that may be affected by the decision as soon as possible.

1.7 It is the responsibility of the student to report ECs at the earliest possible opportunity.

1.8 Each PAU will produce written guidance to supplement this Code of Practice. Such guidance must include details of points of contact, deadlines applicable to ECs and information on how and where Extenuating Circumstance Forms (ECFs) can be obtained. PAUs must ensure that the guidance includes relevant information and contact details for both undergraduate and postgraduate students. Schools must ensure that this Code of Practice and its guidance are widely publicised to students.

2. **Definition of Extenuating Circumstances**

2.1 During a period of study, students may encounter significant personal difficulties that impact on their ability to study for or complete academic assessment(s) including examinations. ECs are circumstances that are exceptional or ‘unforeseen’ and are over and above the course of everyday experience.

2.2 ECs may occur at any point in the academic year and affect any form of assessment including coursework, continuous assessment, class tests and examinations. ECs may also result in absence from academic teaching.

2.3 Prolonged, chronic or long-term conditions are not normally considered a basis for ECs. Students with a chronic illness or disability are advised to
access the support services available which can put in place reasonable adjustments for specific learning requirements and examinations (see Code of Practice on Reasonable Adjustments). However, the timing of the diagnosis, or a marked deterioration of an existing condition may be considered a basis for ECs. For example, if a late diagnosis means that adequate reasonable adjustments cannot be made or an existing condition worsens and is not covered by the reasonable adjustments already in place.

3. **Procedure for Submissions for Consideration by the Extenuating Circumstances Panel (ECP)**

3.1 Submissions of ECs for consideration by the ECP must be made on the ECF and submitted to the designated person within the PAU (usually the Extenuating Circumstances Officer (ECO)).

3.2 A Student who believes the submission contains sensitive personal information and/or evidence or highly confidential information and/or evidence may submit their ECF and accompanying evidence marked “strictly confidential and for the attention of the Chair of the ECP only”.

3.3 **Evidence**

3.3.1 All submissions for consideration of ECs must be accompanied by independent third party evidence which must confirm the existence of the ECs and state how the reported circumstances have impacted on the Student concerned.

3.3.2 Evidence must be legible and in English. Evidence obtained overseas which is written in another language must be accompanied by a certified translation (with any costs incurred in obtaining evidence being borne by the student).

3.3.3 The Student is responsible for providing acceptable and sufficient evidence.

3.3.4 PAUs will not make enquiries to obtain evidence on a Student’s behalf.

3.4 **Deadline**

3.4.1 A Student may submit an ECF to report ECs arising during an examination. Relevant evidence must be provided by the Student. Cases must be submitted to the ECO or designated person within 24 hours of the examination in question. Evidence should be provided within 5 working days of the submission being made.

3.4.2 All other deadlines relating to EC procedures must be set by the PAU, and must be clearly and widely publicised.

3.4.3 It is the sole responsibility of the Student to disclose ECs to their PAU and submit the necessary forms and evidence in a timely manner and without delay. PAUs cannot make submissions on behalf of students.
3.4.4 ECs not submitted by the relevant deadline cannot be considered by
the PAU or the ECP under this Code of Practice and may only be
considered by an Academic Appeal Committee as part of an academic
appeal. An Academic Appeal Committee will not consider ECs
reported outside the deadlines set out in this Code of Practice unless
there is an exceptional reason why the submission was not presented
at the correct time, accompanied by supporting evidence.

4. Organisation of Extenuating Circumstances Panels

4.1 Normally there will be one ECP per PAU. If there is a College ECP, it should
include a representative from each PAU. PAUs may constitute separate
Undergraduate and Postgraduate ECPs if appropriate. Colleges with large
numbers of Joint Honours or Major/Minor programmes may decide to
constitute a separate ECP for these programmes.

4.2 Membership of the ECP will be decided by the Head of PAU and will not
usually exceed 5 members.

4.3 The ECP should be scheduled to convene after the deadline for submission
of ECF has passed, usually in the week following this deadline, but before the
Board of Examiners and meetings will be organised to suit the requirements
of a programme.

4.4 An agenda must be set and will contain the following items:
   a) Approval of terms of reference
   b) Approval of membership
   c) Recommendations for Board of Examiners

4.5 Cases will be discussed with the utmost sensitivity. An ECP may, but need
not, assess cases anonymously; however privacy and confidentiality are
paramount. Members of the ECP must not discuss cases outside the
meeting.

4.6 The ECP may use grading criteria to classify cases and may use the
University template for grading criteria if appropriate (appended to this Code).

4.7 An ECP will not raise marks under any circumstances.

4.8 Possible Outcomes

ECPs must make recommendations to the Examination Board on reasonable
allowances for ECs. Marks for individual modules cannot be adjusted. One of
the following recommendations will be made (The ECP should specify
whether the outcome should be as an internal or external candidate. There
are fee implications for internal candidates):

4.8.1 Allow further sit/submit opportunity. This would be as a first attempt
so the marks will not be capped and there will be a further opportunity
to retrieve failure. Any marks achieved in the subsequent attempt
will replace the original mark.

4.8.2 Allow further re-sit/re-submit opportunity. This would be as a final
attempt so the marks will be capped at the pass mark and there will be
no further opportunity to retrieve failure.
4.8.3 Waive late penalties. The penalties applied for late submission of work will be waived.

4.8.4 Repeat the year in full. This would be as a first attempt so the marks will not be capped and there will be a further opportunity to retrieve failure.

4.8.5 Re-sit the year in full. This would be as a final attempt so the marks will be capped at the pass mark and there will be no further opportunity to retrieve failure.

4.8.6 Proceed with low credit. This decision must be made within University and Programme regulations. Students are not permitted to proceed into the next year with less than 100 credits at the relevant level. Students must be notified of the implications this has on any future failure and the achievement of their degree.

4.8.7 ECs carried forward. No action required in terms of progress decisions, but the circumstances will be considered when determining the degree classification at the relevant time.

4.8.8 Award Notwithstanding Regulations. Subject to any restrictions imposed by accreditation or professional certification, recommend to award a Degree (or other qualification), or award a higher class of degree than would be merited by the marks returned in light of ECs.

4.8.9 Action already taken. The ECs have been noted, but appropriate action has already been taken at the time (e.g. an extension to a deadline, etc)

4.8.10 No action required. The ECs were not considered serious, and or had no material effect on the student’s academic performance.

4.9 A PAU’s decision on ECs should take into account and reflect relevant factors such as the Student’s mode of study, or mode of assessment.

4.10 The decision of the ECP should only be based on the evidence that has been presented to the ECP for consideration in the original submission.

4.11 Decisions on cases concerning Joint Honours or Major/Minor students should be made by the Driver School and should be communicated immediately to the module-owning department.

4.12 A record of outcomes must be taken at the ECP, with cases referred to by ID number only. The record will include a brief summary of the discussion of the case. A Student is entitled to know the outcome of their submission; however, details on the discussions held at the ECP will not normally be disclosed, unless requested by the Student.

4.13 The ECP will report recommendations relating to progress decisions to the relevant Board of Examiners for approval. Individual case details will not be discussed at the Board of Examiners.
