

## Student experiences at EISU

EISU enriches International students' experience of University life not only through its [English support \(/International/eisu/insessional/index.aspx\)](/International/eisu/insessional/index.aspx) for current students and its provision of Preessional programmes, but also through running [day-trips and events \(/International/eisu/day-trips.aspx\)](/International/eisu/day-trips.aspx) on many weekends throughout the year.

**“** Maki Ota (Japan) "My Preessional English course covered everything that I needed on my academic course. Thanks to the many day trips and the friendly environment of the place I also made many new international friends. It was a worthwhile experience that I will never forget!"
