

What students say

We asked former EISU students to tell us why they chose to do a Preessional English course and what benefits they gained from this decision.

Sue

Name: Jia Sue

Nationality: Chinese

English course: 31-week Preessional

University course: LLM Commercial Law

"I developed my skills and learned how to write and reference a good essay, how to summarise and paraphrase ideas and how to collect information for an essay. It was all extremely useful for my current studies. The people on my course who had not done this Preessional found it more difficult so I would recommend doing a Preessional course instead of re-taking IELTS."

Seyed

Name: Seyed Sadr

Nationality: Iranian

English course: 20-week Preessional

University course: PhD in Civil Engineering

"The preessional course taught me skills relevant to my future study. The EISU unit is very friendly, and all members of staff are patient, kind, and helpful."

Violaine

Name: Violaine Bucchiotty

Nationality: French

English course: 20-week Preessional

University course: BSc Archeology

"I'd recommend taking an EISU programme rather than re-taking an IELTS test because the Preessional is more interesting. We had some fascinating discussions in class and there is no better way to improve your English fluency than exchanging points of view with people from different cultures."

Xuan-Yu Liu

Name: Xuan-Yu Liu

Nationality: Chinese

English course: 10-week Foundation English Preessional

University course: Foundation Programme

"I lacked confidence when I arrived, but thanks to the Preessional course I know how to take part in seminars, take notes in lectures and write academic essays. The teachers have helped me a lot and I'm really glad that I studied in the UK on this course before beginning my programme."
