

The Careers Guide Birmingham

The Careers Guide Birmingham offers an excellent opportunity to target our students with information about your organisation and your upcoming opportunities.

The Guide is the University's dedicated careers magazine and provides an easy to access summary of information for our students on:

- Career planning
- Job hunting
- Making applications
- Further study
- Graduate success stories
- Employer vacancy information

The Guide is made available to students during the autumn term each year and so provides the advantage of a year-round presence.
