

Alumni Memories and News

We are hoping to get as many people as possible to the reunions and create a truly memorable day. Expand the sections below to see lists of lost alumni from your year, attendance lists of those already confirmed for the reunions, and memories and news sent in by your classmates.

Lost Alumni

[Open all sections](#)

We are hoping to get as many people as possible to attend the reunion, but over the years we have lost contact with some of our alumni. So that we can invite as many people as possible, we have produced a list of those alumni for whom we have no contact details whatsoever. View the lists of your year group to see if there is anyone you know. If you recognise a name on this list and are able to provide some new information, we would appreciate the opportunity to update our database. You can email us at alumnioffice@contacts.bham.ac.uk or call us on +44 (0)121 414 2773 or 2744.

Alumni memories and news

As alumni send in photographs and memories from their time at Birmingham, we will update this section on a weekly basis. Send your photographs and memories to us at alumnivents@contacts.bham.ac.uk (mailto:alumnivents@contacts.bham.ac.uk).

Phil Arundel (1968 BSc Mechanical Engineering, 1971 PhD Mechanical Engineering): "I particularly remember the lovely campus, the space provided by the adjoining playing fields and all the 'new' buildings."

Mike Webber (1963 BA English): "Now retired. Formerly Director General of a food industry trade association. 1992 awarded OBE for services to the food industry. Married for 47 years (and counting!). Four daughters, five grand-daughters and two grandsons."

R. Peter York (1963 BSc Civil Engineering): "Great to commence studies in brand new building - by canal. I must have been one of the few engineers in the University choir, led by Prof. Anthony Lewis. The experience has kept me singing for nearly 50 years with the Royal Choral Society."

Leslie Castle (1988 BSc Mathematics): "Founders on a Friday night."

Peter Davies (1954 BSc Mechanical Engineering): "1. Visit of Greer Garson to talk in the Students Union. 2. Roller skating each Saturday morning in the Phys. Ed. department. 3. The newly-opened Mech Eng department facilities. 4. Camps at Lake Coniston on vacation (summer)."

Karen Watkins [née Smith] (1978 BSocSc International Studies): "Enjoyed the friendly group of fellow 'International Studies' students terrified of the paternoster lift in Muirhead Tower but not as terrifying as Margaret Hilton (French Prof)!"

Trish Roscoe [née Macey] (1973 BA English): "I fell in love with Birmingham University when I came to the interview and encountered the beautiful Barber Institute and then the lovely green campus. The world opened up when I met fellow students from all over the world with different cultures and customs. And I grew to love Birmingham city with its diverse, friendly population. The English department held some interesting characters e.g. Malcolm Coulthard and David Lodge. My favourite course was Contemporary Cultural Studies where Stuart Hall and Michael Green expanded our minds culturally and politically. The friends I made in week one are still dear friends. We meet regularly and revel in our different lives and shared memories."

Brian Orange (1968 BSc Chemical Engineering): "I much enjoyed my 3 years in Edgbaston. I started in the brand new Lake Hall for 2 years, before taking a flat with 4 others down the Bristol Road. One of my sons, Simon, did 3 years for a BSc in Biochemistry and subsequently an MSc in Computer Science. From 1976 to 2011 when I retired, I was the owner and MD of a chemical distribution company based in Winchester called Orange Chemicals Ltd."

Di Smith [née Diane Grewcock] (1968 BA History, 1969 PGCE): "My best wishes to the class of 1968, particularly those who studied History with me. Following my PGCE course, I spent the whole of my career teaching in Comprehensive schools in Nottinghamshire, beginning in West Bridgford and until retirement in Newark. Of my 3 children, one followed me and studied History at Birmingham. Our family is sport mad. I play tennis and golf and still love the opportunity to pick up a table tennis bat, remembering all those hours in the Union basement. I wish you every happiness and an enjoyable retirement."

Ken Ball (1973 MSc Thermodynamics): "Enjoyed my year with the group under leadership of Prof Frank Bannister and Dr Rayleigh and relaxing in the Post Grad Hut."

Celia Adams [née Lewis] (1973 BSocSc Economics): "I have been happy to return to the University on the Audit Committee, Alumni Committee and to visit the University whenever I can."

Ann Fletcher [née Newing] (1963 BSocSc Economics Politics and Sociology): "I met Brian Fletcher (BCom) in my first term. We married in August 1963 after graduation. We will be celebrating our golden wedding anniversary this August with our 4 children and 9 grandchildren."

Elizabeth Stones [née Madeley] (1973 BA Medieval & Modern History): "I am now retired, with time to travel. This year I went to Mexico to see for myself what Professor Hawgood had shown us in his slides. My life at Birmingham revolved round the staff and students of the History Department and I shall always remember everyone with great fondness."

David Mander (1963 LLB Law): "An inspiring time with Professor Hood-Phillips and Dr Neville Brown. My memories are all now being refreshed with one of my sons holding a senior position at the University and one of my grandsons becoming a 'fresher' this year!"

Derek Pettit (1973 MBChB Medicine): "I am very sorry we are unable to attend the '73 reunion, due to chronic health problems and a very imminent house move to Somerset. I have wonderful memories up to Registrar level at Birmingham. All best wishes to those at the reunion - I toast you!"
