Sound artist Sarah Farmer launches a new exhibition following months of research across the collections at the Lapworth Museum of Geology and Winterbourne House and Garden. Working alongside University curators and staff, and dynamic arts producers Capsule, Farmer has created a series of sound-based works and screen prints in response to her time on campus. The exhibition kicks off at Winterbourne House and Garden on Thursday 24 October where Farmer's work will be in situ for two weeks before moving on to the Lapworth Museum of Geology for a further two weeks, from 07 – 24 November.
