

Current projects

The do.collaboration team are building a diverse portfolio of projects through our collaborative partnerships across academia, heritage and business.

For more information on the projects currently being developed please follow the links below.

- The "**Touch History**" **multi-touch table application** (</facilities/digitalhumanitieshub/projects/touch-history.aspx>) with the HIVE, Worcester, shortlisted for the Museums and Heritage "Innovations" award 2013.
- The "**Birmingham, it's people, it's history**" (</facilities/digitalhumanitieshub/projects/birmingham-its-people-its-history.aspx>) touch table application with Birmingham Museums Trust.
- The **Staffordshire Hoard touch table application** (</facilities/digitalhumanitieshub/projects/birmingham-museums-trust-staffordshire-hoard-galleryy.aspx>), soon to be on display with the Birmingham Museums Trust.
- The **STEM educational multi-touch table application** (</facilities/digitalhumanitieshub/projects/stem.aspx>), built by Clusta and Junction Media, on display at the National Space Centre.
- The **multi-touch table application for the opening of the New Library of Birmingham** (</facilities/digitalhumanitieshub/projects/new-library-of-birmingham.aspx>).
- The two multi-touch table applications for Enginuity and the Museum of Iron with the Ironbridge Gorge Museums Trust.
- The collaborative workshop multi-touch tool built for the "Transforming Thresholds" project, in partnership with the Museum of Leicester.
- Our **range of consultancy projects** (</facilities/digitalhumanitieshub/projects/consultancy-projects-with-business.aspx>) with West Midlands organisations.
