

Projects

The School of Psychology offers a number of PhD studentships each year and we would welcome PhD applications from potential students who are eligible to apply for such studentships.

Recent and ongoing projects

Research projects	Principal Investigator	Researcher	Sponsor	State
Estimating intrinsic characteristics of real images to aid analysis.	Andrew Schofield / Jeremy Wyatt	Xiaoyue Jaing	EPSRC	Active
Mechanisms of shading and texture analysis in the perception of 3-D surfaces	Andrew Schofield / Mark Georgeson	Paul Rock	EPSRC	Completed
Texture cue integration and texture / shading integration	Andrew Schofield/ Frederick Kingdom		Collaboration with McGill Vision	Active
Optic Flow	Mike Harris		EPSRC	Completed

Postgraduate projects	Student	Supervisor	Sponsor	State
Shape, shading and illumination	Giacomo Mazzilli	Andrew Schofield	EPSRC project studentship	Started Oct 2009
Perceptual learning in shape from shading	Dicle Dovencioglu	Andrew Schofield and Andrew Welchman	School funded	Started Oct 2008
	Setu Havanur	Harriet Allen		Started Oct 2008
	Matthew Patten	Andrew Welchman		Started Dec 2008
	Natalie Kelly	Harriet Allen		Started Oct 2008
	Arthur Lugtigheid	Andrew Welchman		
Using texture cues to disambiguate luminance variations in natural images	Peng Sun	Andrew Schofield	EPRSC - Doctoral training account	Started Jan 2006
	Tim Preston	Zoe Kourtzi		Completed
Perceptual Control of Braking	Paul Rock	Mike Harris	MRC	Degree Awarded
After-effects in 2nd order vision	Alice Cruickshank	Andrew Schofield	BBSRC	Degree Awarded
The role of optic flow in steering strategies	Ben Andrews	Mike Harris	EPSRC	Degree Awarded
