Summer School of Science, Pozega Croatia – 29 July – 08 August 2016

Dunja participated in a Summer school of Science in Pozega, Croatia as a technical organiser. This is an international school for talented high school students with high interest in natural sciences, the school runs for 10 days and in that time students work on one project with a few colleagues and they have a chance to hear talks from numerous PIs. Along with support with organisation, Dunja organised a workshop on analysing big data and she gave a talk about her impressions of doing PhD.
