---

Discover how more than 100 researchers across 17 schools and four colleges at the University of Birmingham are addressing the energy challenges we face, from biofuels, hydrogen, distribution, transport, nuclear and oil, to policy, environmental impact, manufacturing efficiency and material development.

The event includes a free buffet and refreshments throughout the day. This event is being supported by, and will feature, the Knowledge Transfer Networks for Environmental Efficiency and Energy Generation and Supply.

**Registration is essential due to the limited number of places.**

Venue: University of Birmingham - Chancellors Court
