

Spinout companies

Nurturing new spinout businesses

We have worked to develop and accommodate many spinout companies across a range of sectors, representing many Schools at the University. Most have been in the Medical, Engineering and Physical Science sectors.

Based on academic research generated by the University of Birmingham, these spinout companies have contributed to the local economic development and have brought many new jobs to the region.

We are continually seeking investors and partners for our spinout companies.

View our list of current and past **spinout companies** (<http://www.birmingham.ac.uk/generic/alta-innovations/spin-out-companies/Spinouts/Spinout-Portfolio.aspx>).

Visit the website of **Alta Innovations Ltd** (<http://www.alta.bham.ac.uk>), the University's trading and commercialisation Company, for more information.

See our **case studies** (</partners/case-studies/spinout-companies.aspx>) for examples of spinout activity
