

Collaborative Provision

Collaborative Provision supports and advises on the development of collaborative provision arrangements to ensure that they adhere to the University policy and principles on collaborative provision. We work in conjunction with Legal Services for the production of legal agreements and also arrange reviews of collaborative provision arrangements and other related activities.

For an overview of the Collaborative Provision policy and principles, please refer to the following document:

- [Collaborative Provision Policy \(PDF - 283KB\) \(/Documents/partners/coll-provisions/POLCollaborativeProvision.pdf\)](#)

For more information on Collaborative Provision please contact:
