The Postgraduate Studentships PhD Funding Fair - Leeds is an ideal event for those looking for or considering undertaking doctoral research.

A member of the Postgraduate Recruitment Team will be attending and will be able to answer any questions you may have about the PhD opportunities available at the University of Birmingham and to discuss the main funding competitions open to students applying for doctoral programmes starting in 2015.

The venue for the fair will take place in Leeds City Centre... visit the registration page to find out more details about the fair and venue.
