

## Members

CeSMA brings together a wealth of medievalists' expertise from different departments across the University.

Their personal profiles are accessed from the links below. CeSMA has its own Management Group which is drawn from across the University. Our postgraduates also form a vital part of our research community and their research topics and interests are also linked to below. Postgraduates working on medieval, Renaissance and Early Modern research also run the vibrant EMREM series of seminars and workshops (see [EMREM forum \(http://emremforum.wordpress.com/\)](http://emremforum.wordpress.com/)).
