

## Research Units

The school is grouped into 4 units. Please follow the links below for more details on each theme and the researchers working within them.

[Physical and Theoretical Chemistry \(/research/activity/chemistry/research-units/physical-chemistry.aspx\)](/research/activity/chemistry/research-units/physical-chemistry.aspx)

[Solid State Chemistry \(/research/activity/chemistry/research-units/solid-state.aspx\)](/research/activity/chemistry/research-units/solid-state.aspx)

[Molecular Synthesis and Catalysis \(/research/activity/chemistry/research-units/synthesis-catalysis.aspx\)](/research/activity/chemistry/research-units/synthesis-catalysis.aspx)

[Biomolecular, Supramolecular and Nanoscale Chemistry \(/research/activity/chemistry/research-units/bio-supra-nano.aspx\)](/research/activity/chemistry/research-units/bio-supra-nano.aspx)
