Getting to the Centre for Systems Biology (CSB)

- The Centre is located on the 3rd Floor of the Haworth Building (**Bulding reference Y2 on the Edgbaston campus map - Yellow Zone** (</Documents/university/edgbaston-map-yellow-09.pdf>))
- The Centre's main entrance is accessible via the disabled access ramp up to set of double doors on the main road opposite the **School of Biosciences** (</schools/biosciences/index.aspx>). Alternatively, you can find the Centre by entering the Haworth Building and making your way to the 3rd Floor. Please ring bell on arrival for assistance as the area is accessible by swipe access only.
- **From University Train Station on foot:**
Exit the University train station and turn left, walking in direction of 'University Centre', past the statue of Faraday. On your right will be the School of Computer Science (Map Ref Y9), with the Learning Centre (Map Ref R28) on your left (glass and brick buildings opposite each other). Carry on walking between and past these two buildings and you will come to the main road (signpost right to 'South West Campus'). On the corner to your right is the 'Haworth Building' (Map Ref Y2), and the Centre for Systems Biology main entrance, opposite the School of Biosciences (Map Ref R27).
