

Research Reports

Phase One Completion

We have now successfully organised seven initial networking events of the ESRC/RDI funded project across the country. In this complete round of Phase I, 172 methods teachers, prospective teachers and some undergraduates themselves registered their interest and gave their valuable views about the teaching and learning of QM.

Meta-synthesis

This synthesis includes the challenges and barriers in the learning and teaching/training of research design and QM as reported by the workshop participants.
