#### **[Microfinance](#)**

Innovation Voucher scheme research for Ethics Online  
August 2010. £3k.

#### **[PropEur \(Property Regulation in European Science, Ethics and Law\)](#)**

EC-funded under the Science in Society programme (Jan 2004 – Jan 2007).

Heather Widdows was Principal Investigator of this project which compiled and analysed approaches in ethics and law to tangible and intangible property in the four themes of the human genome, human tissue, plant genomes in relation to biodiversity and sustainable development and the information society. It considered the ethical and legal status of current and alternative models of governance in these themes.

Running the project involved managing a consortium of eight partners from academic institutions across Europe (from Bulgaria, Germany, France, Slovakia, Spain, Sweden and the UK) and the employment and management of three post-doctoral research fellows at Birmingham University. Total €780 000.
