

Postgraduate Students

The Institute of Advanced Studies is keen to encourage our postgraduate research community to engage with workshops and themes; the majority of workshops have been attended by PGR students.

IAS is working closely with the [University Graduate School \(https://intranet.birmingham.ac.uk/as/student-services/graduateschool/index.aspx\)](https://intranet.birmingham.ac.uk/as/student-services/graduateschool/index.aspx) to discuss the development of opportunities for early career researchers to engage with the benefits and challenges of interdisciplinary research.

As part of one of our inaugural themes, [Saving Humans \(/research/activity/ias/saving-humans/doctoral-researchers.aspx\)](/research/activity/ias/saving-humans/doctoral-researchers.aspx), there are already a number of doctoral researchers working in the area of 'saving humans'.
