

Research activity

Here is a list of all the research activity pages:

Generic List

- [A \(/research/activity/psychology/comp-cog-neuro/index.aspx?style=edit&edit=1\) \(/research/activity/psychology/comp-cog-neuro/index.aspx?style=edit&edit=1\)](#)
- [Commercial and Economic Law \(/research/activity/law/commercial/index.aspx\)](#)
- [Computational Biology - Research expertise - School of Biosciences \(/research/activity/computational-biology/index.aspx\)](#)
- [Computational cognitive neuroimaging - Behavioural neuroscience research - School of Psychology \(/research/activity/psychology/comp-cog-neuro/index.aspx\)](#)
- Information about research into Computational Cognitive Neuroimaging in the School of Psychology at the University of Birmingham. The goal of the Computational Cognitive Neuroimaging Group is to better understand the neural systems that allow us to acquire, represent and retrieve knowledge about our multisensory environment.

- [Contact and how to find us \(/research/activity/ornithology/contact/index.aspx\)](#)
- [Contact the ASTRAL team \(/research/activity/mds/trials/bctu/trials/renal/astral/contact/index.aspx\)](#)
- ASTRAL is a multicentre, randomized, unblinded clinical trial, comparing revascularisation in addition to medical therapy versus medical therapy alone in patients with atherosclerotic renovascular disease (ARVD). The aim of ASTRAL is to assess whether renal arterial revascularisation with balloon angioplasty and/or endovascular stenting can safely prevent progressive renal failure among patients with ARVD. ASTRAL closed to recruitment in October 2007 having recruited 806 patients, and is now in long term follow up until 2017. The trial is managed by the BCTU at the University of Birmingham.
- [Contact the eGFR-C team \(/research/activity/mds/trials/bctu/trials/renal/egfr-c/contact/index.aspx\)](#)
- eGFR-C is a national multicentre prospective longitudinal study investigating the accuracy of different methods of glomerular filtration rate (GFR) estimation run by University of Birmingham Clinical Trials Unit.
- [Contact the Housing and Communities Research Group \(/research/activity/social-policy/housing-communities/contact/index.aspx\)](#)
- Contact numbers and emails for the Housing and Communities Research Group, School of Social Policy.
- [Contact The Interdisciplinary Research Centre in Materials Processing \(/research/activity/irc-materials-processing/contact/index.aspx\)](#)
