[Patient experience and public involvement \(/research/activity/social-policy/patient-experience/index.aspx\)](/research/activity/social-policy/patient-experience/index.aspx)

Patient experience and public involvement. Health Services Management Centre (HSMC) research area. One of the key specialisms within this programme is individual budgets and personalisation in health and social care.

[Patient Reported Outcomes \(/research/activity/mds/domains/health-pop/healthcare-evaluation-and-methodology/patient-reported-outcomes/index.aspx\)](/research/activity/mds/domains/health-pop/healthcare-evaluation-and-methodology/patient-reported-outcomes/index.aspx)

Patient reported outcomes (PROs) are measures reported directly by the patient, which provide "the patient voice" in clinical trials investigating evidence of treatment effectiveness. The aim of the PRO Research Group is to develop best practice for PRO use in trials, to improve the quality of PRO information collected, so that clinical care for patients may be better informed.

The PD COMM Pilot study is a multi centre clinical trial pilot ran by Birmingham Clinical Trials Unit and sponsored by the University of Birmingham. Its aim is to evaluate the feasibility of a full scale trial on the effectiveness and cost-effectiveness of two types of speech and language therapy for people with Parkinson's disease who have self reported problems with voice or speech – standard NHS therapy and Lee Silverman Voice Training.

[PD GEN Study \(/research/activity/mds/trials/bctu/trials/pd/pdgen/index.aspx\)](/research/activity/mds/trials/bctu/trials/pd/pdgen/index.aspx)

PD GEN is a DNA databank for patients with Parkinson's, from the large randomised controlled trials PD MED, PD SURG, PD REHAB & PD COMM.

[PD MED \(/research/activity/mds/trials/bctu/trials/pd/pdmed/index.aspx\)](/research/activity/mds/trials/bctu/trials/pd/pdmed/index.aspx)

PD MED is a large randomised clinical trial investigating the clinical and cost effectiveness of the different classes of drugs in the treatment of patients with Parkinson's disease. It's run by the BCTU at the University of Birmingham.

[PD REHAB \(/research/activity/mds/trials/bctu/trials/pd/pdrehab/index.aspx\)](/research/activity/mds/trials/bctu/trials/pd/pdrehab/index.aspx)

The PD REHAB study is a multi centre clinical trial ran by Birmingham Clinical Trials Unit and sponsored by the University of Birmingham. It's an investigation into the clinical and cost-effectiveness of physiotherapy and occupational therapy in patients with Parkinson's.

[PD SURG \(/research/activity/mds/trials/bctu/trials/pd/pdsurg/index.aspx\)](/research/activity/mds/trials/bctu/trials/pd/pdsurg/index.aspx)

The PD SURG study is a multi centre clinical trial ran by Birmingham Clinical Trials Unit and sponsored by the University of Birmingham. It's an investigation into the clinical and cost-effectiveness of deep brain stimulation (neurosurgery) in patients with Parkinson's.
