[Research and Training Centre in Physical Sciences for Health \(/research/activity/psibs/index.aspx\)](/research/activity/psibs/index.aspx)

This page is the home site of the Research and Training Centre in Physical Sciences for Health (PSIBS DTC) at the University of Birmingham, established by EPSRC for the high-quality research and pioneering development of biomedical imaging techniques. These techniques are inherently interdisciplinary, drawing upon chemistry, physics, computer science and other subjects to build an integrated approach to postgraduate study across a wide spectrum of physical sciences at the life sciences interface.

[Research areas - Environmental Health Sciences research - School of Geography, Earth and Environmental Sciences \(/research/activity/environmental-health/areas/index.aspx\)](/research/activity/environmental-health/areas/index.aspx)

Research areas in Environmental Health Sciences in the School of Geography, Earth and Environmental Sciences at the University of Birmingham. Research in the group is loosely gathered into four principal areas: Atmospheric Chemistry and Air Pollution, Environmental Nanoscience, Meteorology and Climate and Persistent Organic Pollutants (POPs).
