

Research activity

Here is a list of all the research activity pages:

Generic List

[A \(/research/activity/medicine/immunology/hepatitis-C-and-related-viruses/viral-immunology/index.aspx?AZListing_AttoZLetter=v&stylemediatype=print&AZListing_List_GoToPage=2\)](#)

[Vascular and Reproductive Biology Research Group \(/research/activity/mds/domains/cardio-resp-neuro/vascular-inflammation/vascular-and-reproductive-biology/index.aspx\)](/research/activity/mds/domains/cardio-resp-neuro/vascular-inflammation/vascular-and-reproductive-biology/index.aspx)

Information on the Vascular and Reproductive Biology Group, led by Dr Peter Hewett, Section of Cardiovascular Sciences, School of Clinical and Experimental Medicine, College of Medical and Dental Sciences, The University of Birmingham

[Vascular Inflammation, Thrombosis and Angiogenesis \(/research/activity/mds/domains/cardio-resp-neuro/vascular-inflammation/index.aspx\)](/research/activity/mds/domains/cardio-resp-neuro/vascular-inflammation/index.aspx)

This multidisciplinary research area brings together research in platelet signalling and function, leukocyte trafficking and endothelial cell biology, aiming to alleviate a variety of pathologies including thrombo-inflammatory vascular pathology, platelet function disorders and cancer angiogenesis, with major support from the British Heart Foundation.

[Vascular Tetraspanin Research Group \(/research/activity/mds/domains/cardio-resp-neuro/vascular-inflammation/vascular-tetraspanin-group/index.aspx\)](/research/activity/mds/domains/cardio-resp-neuro/vascular-inflammation/vascular-tetraspanin-group/index.aspx)

Information on the Vascular Tetraspanin Group led by Michael G Tomlinson, Cardiovascular Sciences, School of Clinical and Experimental Medicine, College of Medicine and Dentistry, The University of Birmingham

[Vehicle dynamics - Mechanical Engineering research \(/research/activity/mechanical-engineering/vehicle-technology/vehicle-dynamics/index.aspx\)](/research/activity/mechanical-engineering/vehicle-technology/vehicle-dynamics/index.aspx)

[Vehicle Technology - Future power systems - Mechanical Engineering research \(/research/activity/mechanical-engineering/vehicle-technology/future-power/index.aspx\)](/research/activity/mechanical-engineering/vehicle-technology/future-power/index.aspx)

The FPS Group researches new combustion and energy conversion technologies, alternative fuels and hydrogen as means to create clean, efficient and sustainable power sources for propulsion and stationary use.

[Vehicle technology - Mechanical Engineering research \(/research/activity/mechanical-engineering/vehicle-technology/index.aspx\)](/research/activity/mechanical-engineering/vehicle-technology/index.aspx)

The Vehicle Technology Research Centre brings together research groups in four areas associated with vehicles, engines and fuels. Sustainability, environmental concerns, user safety and comfort are the common factors for future designs.

[Viral Immunology Group \(/research/activity/mds/domains/immunity-infection/virology/hepatitis-C-and-related-viruses/viral-immunology/index.aspx\)](/research/activity/mds/domains/immunity-infection/virology/hepatitis-C-and-related-viruses/viral-immunology/index.aspx)

Viral Immunology group at University of Birmingham, studying the complex role of lymphocytes in persistent infections, with a special focus on Hepatitis C infection and liver immunology.

[Viral Oncology \(/research/activity/mds/domains/Cancer/viral-oncology/index.aspx\)](/research/activity/mds/domains/Cancer/viral-oncology/index.aspx)

[Virtual heritage \(/research/activity/eese/ise/hit-team/heritage/index.aspx\)](/research/activity/eese/ise/hit-team/heritage/index.aspx)

[Visual cognition research - School of Psychology \(/research/activity/psychology/visualcognition/index.aspx\)](/research/activity/psychology/visualcognition/index.aspx)

The retino-cortical processes studied by psychophysicists precede the recognition of 3-D shape and object identity studied by Heinke, Humphreys, Kourtzi, Olson, and Riddoch.
