

LD Medication Guideline

Using Medication to Manage Behavioural Problems in Adults with Learning Disabilities

The University of Birmingham developed this National Guideline with:

- The Learning Disability Faculty and the College Research and Training Unit of the Royal College of Psychiatrists
- MENCAP
- Supported by the Big Lottery Fund.

The following documents and resources can be downloaded from the [Downloads page \(/research/activity/ld-medication-guide/downloads/index.aspx\)](#) of this site:
