

Activities and events

The Centre runs an annual programme of research-related events which varies from year to year. Once every one or two years a distinguished Visiting Fellow is invited for a period of up to a week to work with undergraduates, postgraduates and postdocs, and staff and to give one or more public lectures or seminars.

An annual Leopardi Study Day is organized by the Centre's postgraduates, and the Centre hosts a number of relevant seminars, symposia and lectures.
