

About

Reference Manager is a program which enables you to

- organise your references and related files in a database
- watch your bibliography appear as you write
- publish references online
- share references on a network

These pages have been compiled by [Dave Moore](http://staff/profiles/haps/PublicHealthEpidemiologyBiostatistics/moore-david.aspx) and [Lesley Clarke](http://staff/profiles/mds-hub/clarke-lesley.aspx) and are intended as a resource area for information about Reference Manager

Information is provided about the following areas:

- [Installing Reference Manager](http://research/activity/mds/projects/HaPS/PHEB/refman/installation/index.aspx)
- [Support for Reference Manager](http://research/activity/mds/projects/HaPS/PHEB/refman/support/index.aspx)
- [Capture/Import Filters and associated bibliographic databases](http://research/activity/mds/projects/HaPS/PHEB/refman/filters/index.aspx)
- [Frequently Asked Questions](http://research/activity/mds/projects/HaPS/PHEB/refman/FAQs/index.aspx)
- [Reference Manager 10 and 11 Compatibility Issues](http://research/activity/mds/projects/HaPS/PHEB/refman/compatibility.aspx)
- [New Features in Version 12](http://www.adeptscience.co.uk/products/refman/reference/features.html)
