

## For Trial Participants

These pages contain information for potential participants and those already entered into FOxTROT. Please use the menu options on the left to navigate to the relevant pages.

### FOxTROT Patient Video

A short 20 minute video was created in 2009 that summaries the information provided in the Patient Information Sheet (PIS). The video does not cover all of the information to the same level of detail, but is complimentary to the PIS. We plan to make the video available online, but until then please request a copy from your oncologist who can obtain a DVD from the **FOxTROT Study office** (<mailto:foxtrot-trial@contacts.bham.ac.uk>).

If a question is not answered on these pages or by your clinician please contact the **FOxTROT Study office** (<mailto:foxtrot-trial@contacts.bham.ac.uk>).

For further information on patient involvement in clinical trials, please see the National Institute for Health Research website:

<http://www.crnc.nihr.ac.uk/ppi> (<http://www.crnc.nihr.ac.uk/ppi>)
