

For trial participants

NEO-EXCEL is an academic trial for postmenopausal women with early breast cancer.

- **[More information about this trial \(http://cancerhelp.cancerresearchuk.org/trials/a-trial-looking-at-aromatase-and-cox-2-inhibitors-before-surgery-for-post-menopausal-early-breast-cancer\)](http://cancerhelp.cancerresearchuk.org/trials/a-trial-looking-at-aromatase-and-cox-2-inhibitors-before-surgery-for-post-menopausal-early-breast-cancer)**

A summary of the principles of clinical trials can be found on the Cancer Research UK's patient website (www.cancerhelp.org.uk (<http://www.cancerhelp.org.uk>)).
