

## Crystal Growth Research Collaborators

Besides collaborative research undertaken within the University in both the [Metallurgy & Materials \(/schools/metallurgy-materials/index.aspx\)](/schools/metallurgy-materials/index.aspx) and [Physics \(/schools/physics/index.aspx\)](/schools/physics/index.aspx) Schools, other collaborators have included groups within the institutions listed below:

- University College London (UCL), UK
- University of Cambridge, UK
- University of Oxford, UK
- University of Bristol, UK
- University of Warwick, UK
- University of Southampton, UK
- University of Salford, UK
- European Synchrotron Radiation Facility (ESRF), France
- Institut Laue-Langevin (ILL), France
- Universidad de Zaragoza, Spain
- University of London, UK
- University of Durham, UK
- Rutherford Appleton Laboratory, UK
- Diamond Synchrotron Light Source, UK
- University of Liverpool, UK
- Daresbury Laboratory, UK
- University of Manchester, UK
- Ames Laboratory, USA
- Cardiff University, UK
