

## University scholarships

The University has a number of scholarships available to postgraduate students. These cover both research and taught programmes, and assist with the cost of tuition fees.

In some cases, scholarships may contribute towards living costs. Competition for these scholarships is mainly based around academic performance, and the number of scholarships offered varies from year to year. For more details visit the University of Birmingham Postgraduate Scholarship web pages.

The Engineering and Physical Sciences College also has a limited number of highly competitive PhD scholarships for both home students and international students. In the first instance please contact [Professor Martin Freer \(/research/activity/nuclear/about-us/people.aspx\)](#), Tel 0121 414 3384.

Please follow the link for details of the Engineering and Physical Sciences College International [Elite Research Scholarship Programme](#) ([http://www.as.bham.ac.uk/study/prospective/scholarships/elite\\_scholarships.shtml](http://www.as.bham.ac.uk/study/prospective/scholarships/elite_scholarships.shtml)).
