

About postgraduate study

From 1900 to the present day, we've been leading the way in research and education, making ground-breaking progress in areas that span industries such as nuclear physics, gene structure, medicine, space research and communications.

Excellent sporting facilities, a busy calendar of social events and a global reputation for teaching make Birmingham a great place to study – and we're proud of the calibre of our academic community. For more information about what Birmingham has on offer for you, please visit the [University of Birmingham About Us web pages](http://www.birmingham.ac.uk/university/index.aspx) (<http://www.birmingham.ac.uk/university/index.aspx>).
