

Undergraduate study

Gaining a high-quality education from a leading British university is not just an exciting challenge – it is a major step towards a fulfilling career which will provide the income, status, interests and lifestyle you choose.

The University of Birmingham is an internationally recognised centre of learning and research, set in a pleasant green campus, and with a very friendly atmosphere.

You may be interested in our Nuclear Engineering Degree or the new degrees combining mainstream engineering with a focus on the emerging discipline of Energy Engineering.

What is Nuclear Science?
